1 Half open, modulaire polyethyleen glijbanen gemaakt van rotomoulded LDPE-materiaal.

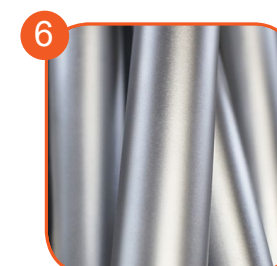

2 Gesloten, modulaire glijbanen van polyethyleen, gemaakt van rotatiegegoten materiaal van het type LDPE.

3 Wandplaten gemaakt van kleurrijk drielaags 15 mm HDPE-polyethyleen, in de hoogste kwaliteit, volledig vochtbestendig en bestand tegen UV.

4 Platen van de wanden en platformen van kleurrijk 13 mm HPL (zwarte platen van 8 mm HPL), in de hoogste kwaliteit, volledig vochtbestendig en bestand tegen UV.

6 Solide constructie gemaakt van roestvrij staal AISI 304, volledig bestand tegen weersomstandigheden. Solide constructie gemaakt van roestvrij staal AISI 304, volledig bestand tegen weersomstandigheden.

7 Het TIC TAC TOE-spel is gemaakt van polyethyleen, roterend gegoten met symbolen op de vorm. De ton is 16 cm hoog en 15,5 cm breed verrijkt met extra symbolen zoals zon en maan, wat het speelplezier nog groter maakt.

8 Veilige buispluggen van spuitgegoten polyamide.

9 Plaat- en touwverbindingen gemaakt van gegoten polyamide.

10 Klimrotsen gemaakt van chippings en kleurrijke polyesterhars.

11 Buis gemaakt van LDPE polyethyleen rotatiegegoten met een binnendiameter van 53,3 cm en een lengte van 125 cm.

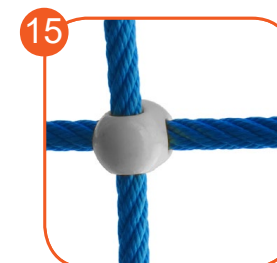

12 Verbindingselementen zoals schroeven, moeren, ringen van roestvrij staal. Vandalisbestendige schroefpluggen van gegoten polyamide.

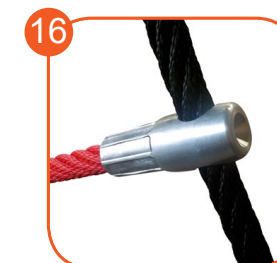

13 Systeem van verbindingstukken en klemmen gemaakt van een sterke aluminiumlegering. Aluminium wordt beveiligd door het proces van elektroforese en poedercoating met polyesterverf, UV-bestendig en QUALI COAT gecertificeerd.

14 Polypropyleen touwen pp-multi split type met een stalen kern en een diameter van 16 mm.

15 Stevige en esthetische touwverbinders gemaakt van gegoten polyamide.

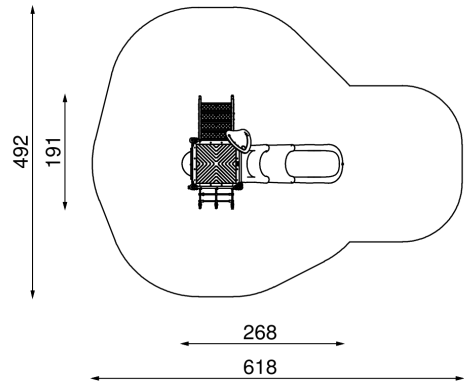

16 Touwuiteinden gekoppeld in een huls gemaakt van een duurzame aluminiumlegering.

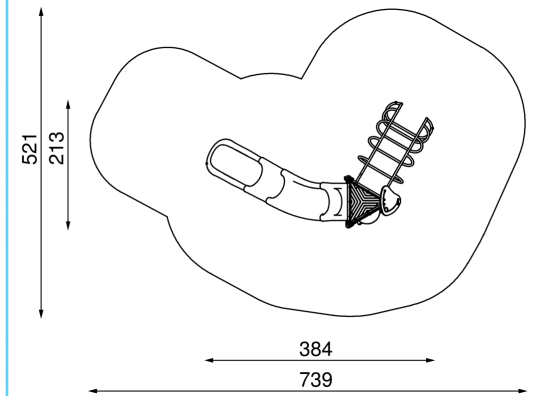

17 Halfbolvormig venster met een diameter van 400 mm. Materiaal: door hitte gevormd polycarbonaat, 5 mm dik.
